

## 👉 Select number of factors

2

Reset

## 👉 Select the upper and lower limits

| Factor   | Lower limit | Upper limit |
|----------|-------------|-------------|
| Factor 1 | 0           | 100         |
| Factor 2 | -1          | 1           |

Modify factors/limits

## 👉 Perform individual experiment/measure distance from optimum value (validate optimum value)

| Factor   | Value   |
|----------|---------|
| Factor 1 | 28.125  |
| Factor 2 | -0.4375 |

Calculate response

Is optimum

Response= 320.3734872

## 👉 Perform bulk experiments

To perform bulk experiments, paste your excel data here.
