👆 Select number of factors

2

Reset

👆 Select the upper and lower limits

Factor	Lower limit	Upper limit
pH	1	13
Temperature	0	100

Modify factors/limits

👆 Perform individual experiment/measure distance from optimum value (validate optimum value)

Factor	Value
pH	7.036116534
Temperature	39.66737

Calculate response	Is optimum

Response= 257.4002153

👆 Perform bulk experiments

```
7.036116534    39.66737
10.03611653    14.66737
10.03611653    64.66737
7.036116534    39.66737
```
